

Many thanks for your enquiry relating to our resources. Included in this file are resource descriptions & pricing. Further inspection of our resources is available at [www.teachict.co.uk](http://www.teachict.co.uk).

### Renegade Hero - £85

A sci-fi based resource for pupils at KS3. A mutant rebellion has taken place and it is up to General Jake Jones's team to use their cyberskills to defeat the deranged Mishka.

This resource includes :

- ⊕ a storyline
- ⊕ character profiles
- ⊕ image & multimedia libraries
- ⊕ help section
- ⊕ custom graphics and animation available for use in pupil's work
- ⊕ animated introductions to tasks

This resource delivers :

- ⊕ Communicating information with word processing, DTP & presentation software.
- ⊕ Modelling with spreadsheet software
- ⊕ Handling information with database software

### Project Central - £30

Project Central offers 3 activities; Event Organiser, Film Distributor and Murder in Mind with a total of 40 tasks available for pupils to apply their ICT skills on.

This resource KS3 has been split into yeargroups

- ⊕ Event organiser for Year 7 focuses on communicating information with word processing, DTP and presentation software.
- ⊕ Film distributor for Year 8 focuses on communicating information and modelling with spreadsheet software.
- ⊕ Murder in Mind focuses on communicating information, modelling and handling information with database software.

### Mission Control - £15

The year is 2055, the internet has been replaced with the World Network System. Humans are integrated with the system by brain implants. These implants allow humans to interact with the World Network System from wherever they are. But the system is under attack by the evil Zenon – your mission is to help your cyber agents find the anti-virus code and so save all humanity.

But the system is under attack by the evil Zenon – your mission is to help your cyber agents find the anti-virus code and so save all humanity.

This is a basic resource for KS3 pupils aimed at delivering the basics of communicating information, modelling and handling information. We tend to use this resource for lower ability pupils who struggle with more demanding ICT tasks.

### Star Struck (CD) - £85

Star Struck is every pupils chance for fame. They need to create a virtual band and enter a competition called “Star Struck”. Once they have done this they are called upon to assist with the organisation of Star Struck.

This resource includes :

- ⊕ custom designed graphical interface
- ⊕ MP3 player
- ⊕ image & multimedia libraries
- ⊕ animated and narrated guidance
- ⊕ custom graphics and multimedia available for use in pupil’s work
- ⊕ showcase feature for pupil’s best work to be displayed

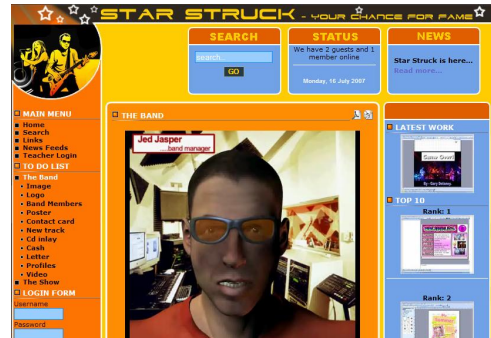

This resource delivers :

- ⊕ Communicating information with word processing, DTP & presentation software.
- ⊕ Modelling with spreadsheet software
- ⊕ Handling information with database software

## Starstruck 2.0 (web subscription) - £125/year

This web based resource is a development of our popular "Starstruck" and uses web2.0 technology to further engage pupils. It has all of the features of Starstruck plus :

- ⊕ A log in feature
- ⊕ Easy editing for teachers - Use the LOGIN form to login and click on the edit button next to the title of this text - easy
- ⊕ Pupil's upload work
- ⊕ The Charts - registered pupils can vote on each others work
- ⊕ Links
- ⊕ Newsfeeds
- ⊕ Pupils can add favourites or buddies
- ⊕ Media manager for uploading your own videos, loops & tunes
- ⊕ Teachers area for managing users, managing pupil work or taking your own version of Star Struck to the next level

When you subscribe to Starstruck 2.0 you receive your own, private & supported installation of Starstruck 2.0 which you can develop as your own. Each installation is hosted on our server :

- ⊕ Dual Intel Xeon Processor 3.4GHz with 2MB Cache
- ⊕ 8 GB RAM
- ⊕ Dual 136 GB SCSI Drive

**REVIT3D - £75 site licence.** Pupil licences for home use are available for £2.50 per licence.

Many pupils dislike revision - they may find it boring and difficult or it may be presented to them in a way which is unsuitable for their learning style. As a teacher it is so frustrating to work hard with pupils for a number of years only for them to do poorly in examinations due to lack of revision.

Building upon the idea of mindmaps we have developed a 3D revision resource based upon today's computer games that incorporates audio and image files to give a rich revision environment.

#### System Requirements

- ⊕ Windows 98 - XP
- ⊕ 1.2GHz Processor or equivalent
- ⊕ 128 MB RAM
- ⊕ 470 MB disk space
- ⊕ 32MB DirectX 7 capable graphics card

Sections of curriculum for GCSE theory have been organised into rooms and key knowledge points are on the walls - these are expanded upon by the use of audio terminals which the pupil has to walk up to and operate.

### AS level ICT £35

CD version includes site & word & powerpoint theory files. In addition there is an animated step by step guide to making an A-level spreadsheet.

### Life skills £40

Aimed at delivering life skills and based on WJEC Entry Level First Skills profile this resource includes powerpoints and exercises for number of units a number of units.
